

“My HyMo-Body helps me function better in my daily life and I feel more stable and have less pain”
Maria, Ehlers-Danlos patient

HyMo

TEXTILE ORTHOSIS

Available as a Body and/or Trousers with short or long sleeves and legs

This orthosis is intended for patients with Ehlers Danlos Syndrom. HyMo is not an off-the shelf product, it is a made to measure orthosis for each user with focus on stabilizing and limiting the range of motion in the joints.

HyMo can be ordered with extra reinforcements to suit each patients needs.

Measurements should be taken by a Physiotherapist or a certified Orthotist.

HyMo

HyMo is a textile orthosis in shape of a body and/or trousers with short or long sleeves and legs. It is intended for patients with Ehlers Danlos Syndrom. HyMo fits tight against the body and can improve posture and give increased joint stability, i.e. hips and shoulders get stability from the tightness of the material. The HyMo is only available as a made-to-measure orthosis. It is used gradually until the desired time of use is reached, 8 - 10 hours per day. The material in HyMo has been carefully chosen, produced and certified according to Oeko-Tex standard 100, class II.

Intended Use:

Ehlers Danlos Syndrom.

Contraindications:

Edema, dislocated joints (not reduced).

Other: This garment is a made to measure orthosis. Orderforms, instructions and measurement forms are available on our web site.
