VISSION™ Wrist Orthosis

A wrist orthosis in standard model, made of a durable resilient material with a soft and comfortable inside. The model is open and easy to put on and take off. It has a good anatomic fit inside the hand, over the back of the hand and around the structures of the thumbs. The orthosis gives a stabil support with a mouldable plastic stay on the volar side. It has an open adjustable thumb band. The model is 19 cm long.

Recommended Range Of Application

Rheumatic disorders, soft tissue injuries, inflammations, work related strain or when rheumatic and/or degenerative changes are present.

Measurements

Wrist Circumference

Item No.	Model	Size	Measurement	L/R
