

TENI Wrist (Bromsa)

Designed to help the patient learn to limit the stress that caused or may cause injury. The Teni wrist provides a gentle dorsal extension "brake" to remind and train the patient to limit the amount they bend the wrist back to prevent excessive stress to tendons. At the same time, the wearer is able to continue normal hand function. Two stays are included to vary the degree of support. One stay - mild support. Two stays - stronger support.

Recommended Range Of Application

Relief for the extensor muscles in connection with lateral epicondylitis.

Measurements

Wrist circumference.

Item No.	Size	Measurement	L/R	Color
282401011	Small	11-14 cm	Left	Blue
