Custom ToeOFF®

Custom ToeOFF® is a custom-made version of the ToeOFF® ankle-foot orthosis (AFO) for individuals with foot drop. The orthosis can be ordered for patients who require a customized design, for example due to calf atrophy or hypertrophy, a unique lower leg shape, or the need for a different level of stiffness.
Orders can be based on a scan, negative cast (fiberglass cast or STS sock), positive cast or measurements. Various options can be selected when ordering, including heel height, stability and pressure relief.
