CoverKIT™ 2.0

CoverKIT™ 2.0 is another new smart interface innovation from Allard. This new interface is designed to fit the 2.0 and 2 ½ models of ToeOFF® and BlueROCKER®. CoverKIT™ 2.0 combines our SoftKIT™ interface with a thin textile front to form a sleeve that slides over the anterior shell. Smooth, sleek appearance. The kit includes two narrow neoprene pads if there is a need to create a pressure-free channel for tibia prominences. If needed, the original straps, supplied with the brace, can be worn together with the CoverKIT™.

Item No.	Model	Size	Color	Calf circumference
287650010	coverKIT™ 2.0	X-Small	Black	31 - 34 cm
