Hyperextension Brace C35+

Adjustable three-point corset made of aluminium and synthetic leather for postoperative treatment, designed to limit spinal flexion and lateral movement. The corset is adjustable in height and chest circumference, and features a rotatable chest plate with graduated markings for easy angle adjustment. The lower bar can be set in either a mobile or fixed position. Adjustable back plate.

Recommended Range Of Application

Immobilisation treatment of lumbar and thoracolumbar stable fractures caused by trauma, stable compression fractures resulting from osteoporosis, dislocations, and osteoarthritis.
