C35 Hydro

A hyperextension brace made from water-resistant material, making it suitable for aquatic therapy. The brace is adjustable in both height and chest circumference and features a pivoting chest pad. The pelvic bar can be locked in any desired position. Fastens with quick-release buckles. The padding is replaceable.

Recommended Range Of Application

Immobilization treatment of stable lumbar and thoracolumbar fractures caused by trauma, stable compression fractures due to osteoporosis, dislocations, and osteoarthritis. Intended for temporary use during aquatic therapy.

Measurements

Height: Measure from the sternum to the pubis.

Item No.	Model	Size	Height	Pelvic Circumference
203580011	Hydro	Small	39 - 50 cm	60 - 75 cm
203580012	Hydro	Medium	42 - 52 cm	75 - 90 cm
